# IMPACT FINANCE FOR SOCIAL INNOVATION

## Roundtable

January 24, 4:30pm - 7pm

Milano Luiss Hub

Via Massimo D'Azeglio, 3, 20154 Milano MI

This meeting is organized in order to better comprehend the ever growing connection between impact investing and social innovation. Impact investors are a heterogeneous group with a range of expectations about appropriate financial and social returns.

During the round table speakers will bring their view (and their organization's one) on impact investing. Together we will explore the reason for their interest in impact investing and the strategies they adopt. The meeting will focus on Emerging and Frontier Markets and will offer different views from the main players in the field.

The event should allow the public a better understanding of the topic and the occasion to have a direct confrontation with potential investors.

**This event is part of BoostInno consortium meeting.** Boosting Social Innovation - BoostInno is an URBACT network of 10 EU cities which works on improving or creating the ecosystems, that stimulate, foster and develop social innovation. The network is enabling public administrations to play a new role as public booster and brokers/facilitators of social innovation activities/projects/policies, by driving social innovation in, through and out the public sector. Partnership is composed of 10 cities: Gdansk (PL)-Lead partner, Paris (FR), Milan (IT), Turin (IT), Braga (PT), Barcelona (ES), Wroclaw (PL), Skane County (S), Baia mare (RO), Strasbourg (FR).

In this framework, the network members will meet in Milan on January 24th-25th-26th 2018.

04:30pm - 5pm
