Pavlos Melas presents their platform

The Tropa Verde online platform has been fully operational since Tuesday 23th. The Mayor of Pavlos Melas, Dimitris Demourtzidis, invited citizens to enroll in the program, because it provides the appropriate incentives not only for their information and environmental awareness, but also for their practical participation in actions related to proper waste management, and recycling, which is one of the main goals of the circular economy. For the promotion of the program, informative actions will be carried out in the districts of the Municipality, with the participation of the local associations of support.

Online meetings in Opole Agglomeration

@TropaVerdeOpole was quite busy. The last two Mondays they had interesting meetings with local agents. The first one was about the Polish “Green City” Project, while in the second the main purpose of the meeting was to present the current state of project implementation and also to discuss a model agreement regarding the participation of municipalities and Selective Municipal Waste Collection Points (PSZOK).

Visit <https://opole.tropaverde.org> to get more interesting information (in Polish).

@TropaVerdeURBCT

Tropa Verde is a network of 6 cities, districts and agglomerations - Santiago de Compostela (Spain), Zugló (Hungary), Pavlos Melas (Greece), Opole (Poland), Nice Provence-Alpes-Côte-d’Azur (France) and Guimarães (Portugal) - that aims to promote recycling by rewarding good environmental practices and behaviours. It is supported by the URBACT programme of the EU.
