Rewards!

the stars you earn are valuable

In recent weeks, several of our cities have been updating their rewards list for Tropa Verde users. In Zugló they can get free magazines, while in Santiago they have discounts on the purchase of efficient appliances, a free bloomer bread, or even a free game in an escape room. In other cities, such as Pavlos Melas, most rewards are discounts at restaurants. Visit your city's rewards page at tropaverde.org to stay up to date!

Changing the subject, Tropa Verde Transfer Network Final Transnational Seminar will take place at the end of the month. Due to the Covid-19 linked restrictions, the meeting will obviously take place online, throughout 2 different morning sessions:

- On Tuesday 24th, partners will meet to discuss their progress not only around the implementation of Tropa Verde platform in their respective cities, but also some new outputs currently being produced and to come soon, such as Learning Logs or Transfer Stories.
- On Wednesday 25th, a Virtual Coffee-Seminar will take place involving local stakeholders from our 6 cities (so called "ULG – Urbact Local Groups" members), in order to share experiences and showcase some first results.

Zugló committed to environmental awareness

The municipality of Zugló supports a contest for the collection of waste from batteries, mobile phones and other devices, the pickup contest ends Nov. 20.

The special prize of the municipality of Zugló to those who harvest more mobile phones assumes the cost of the bus of a day trip for the most active class.

A new life for used plastic

[PLASTICpeople](#) efforts to transform people's plastic waste into something harmless and useful are on the right way! They turn plastic waste that pollutes water and soil in Vietnam into designer furniture or elegant homes for the most disadvantaged.

@TropaVerdeURBCT

Tropa Verde is a network of 6 cities, districts and agglomerations - Santiago de Compostela (Spain), Zugló (Hungary), Pavlos Melas (Greece), Opole (Poland), Nice Provence-Alpes-Côte-d'Azur (France) and Guimarães (Portugal) - that aims to promote recycling by rewarding good environmental practices and behaviours. It is supported by the URBACT programme of the EU.
