- 1) Cycle of the LSG and CHIMP
- 2) Preparation of the CHIMP
 - Analysis of current situation
- 3) Elaboration of the CHIMP
 - Vision, Objectives, Field of Actions
 - Structures and Procedures
 - How to do...
 - Pay attention to ...

★ 1) Cycle of LSG and CHIMP

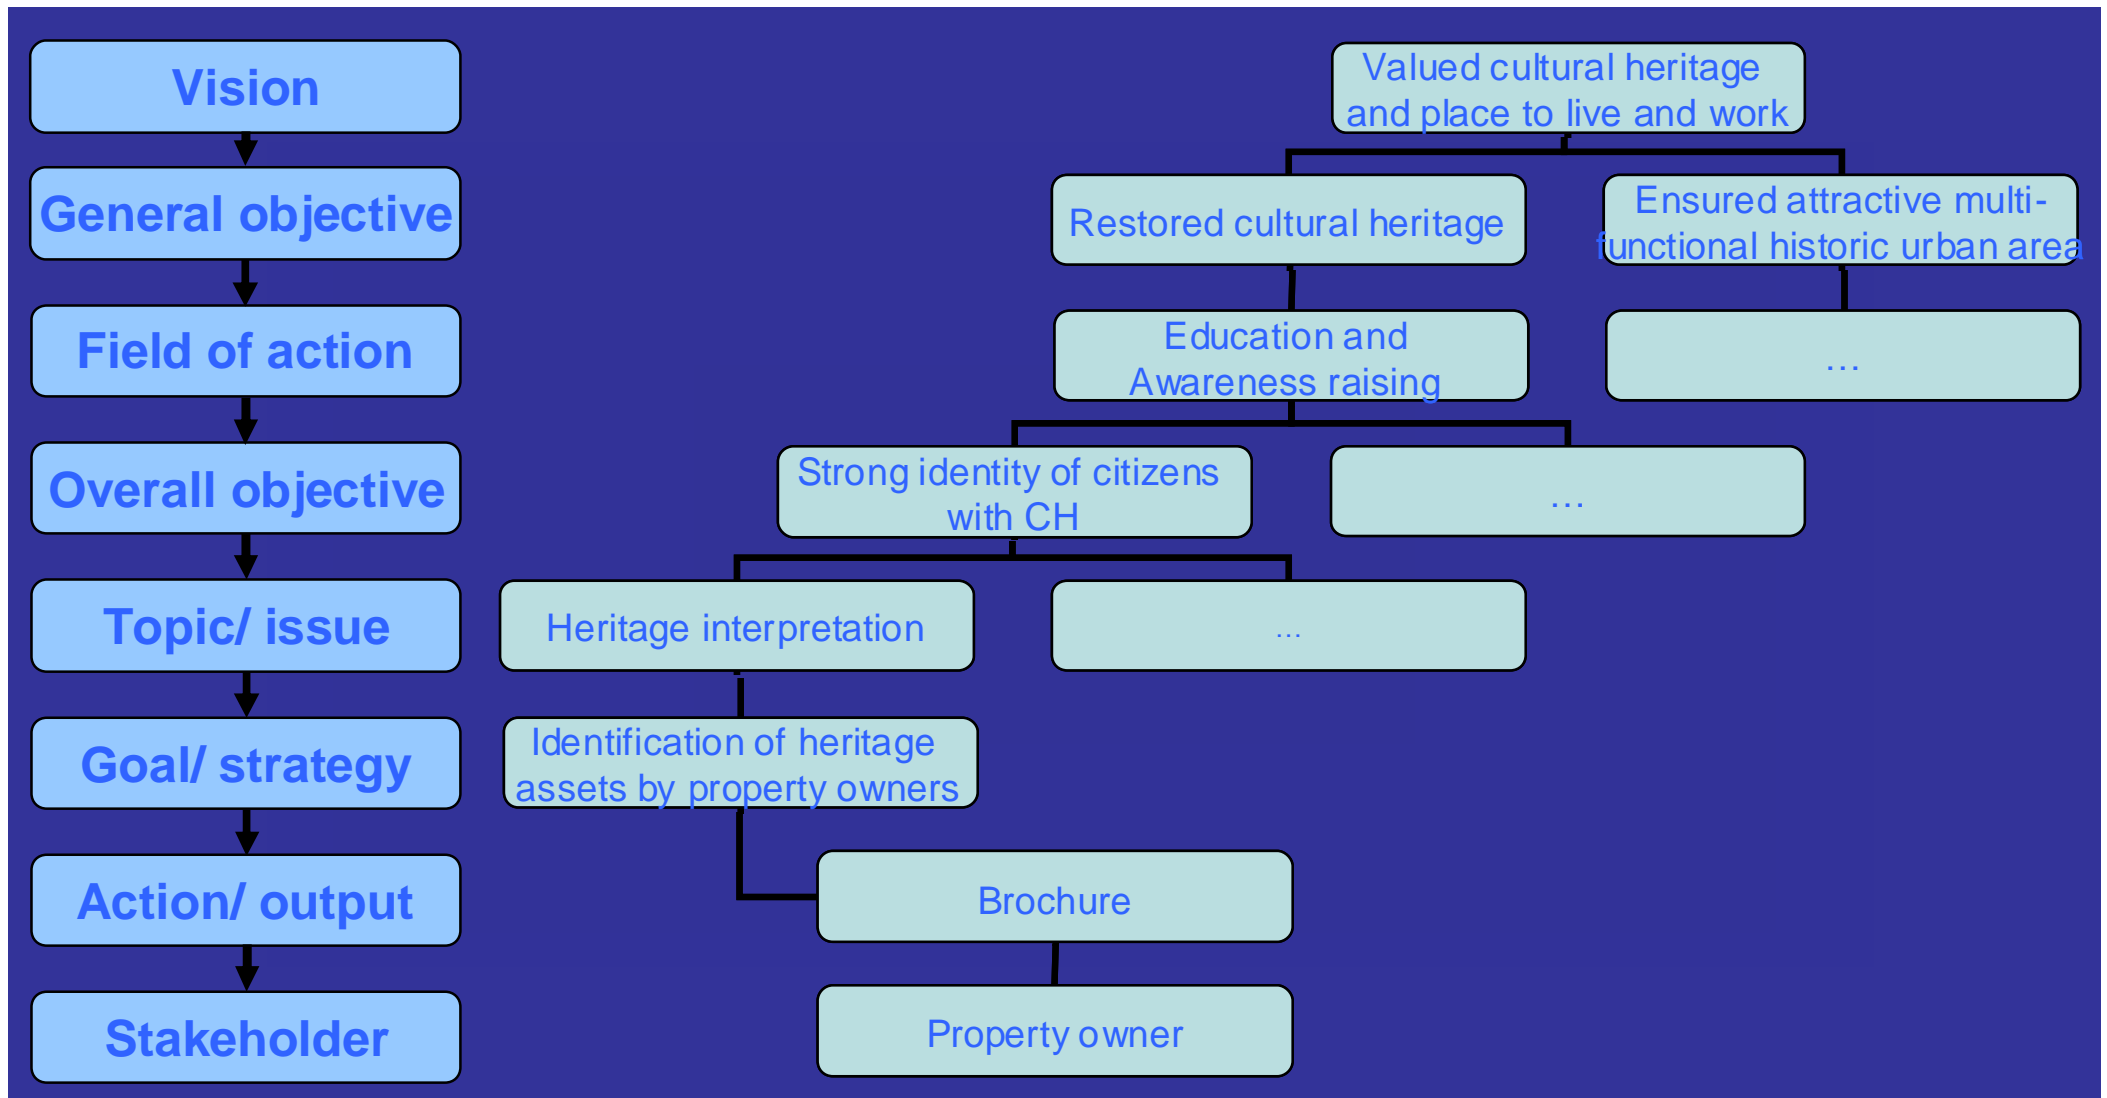

★ 2) Preparation of the CHIMP

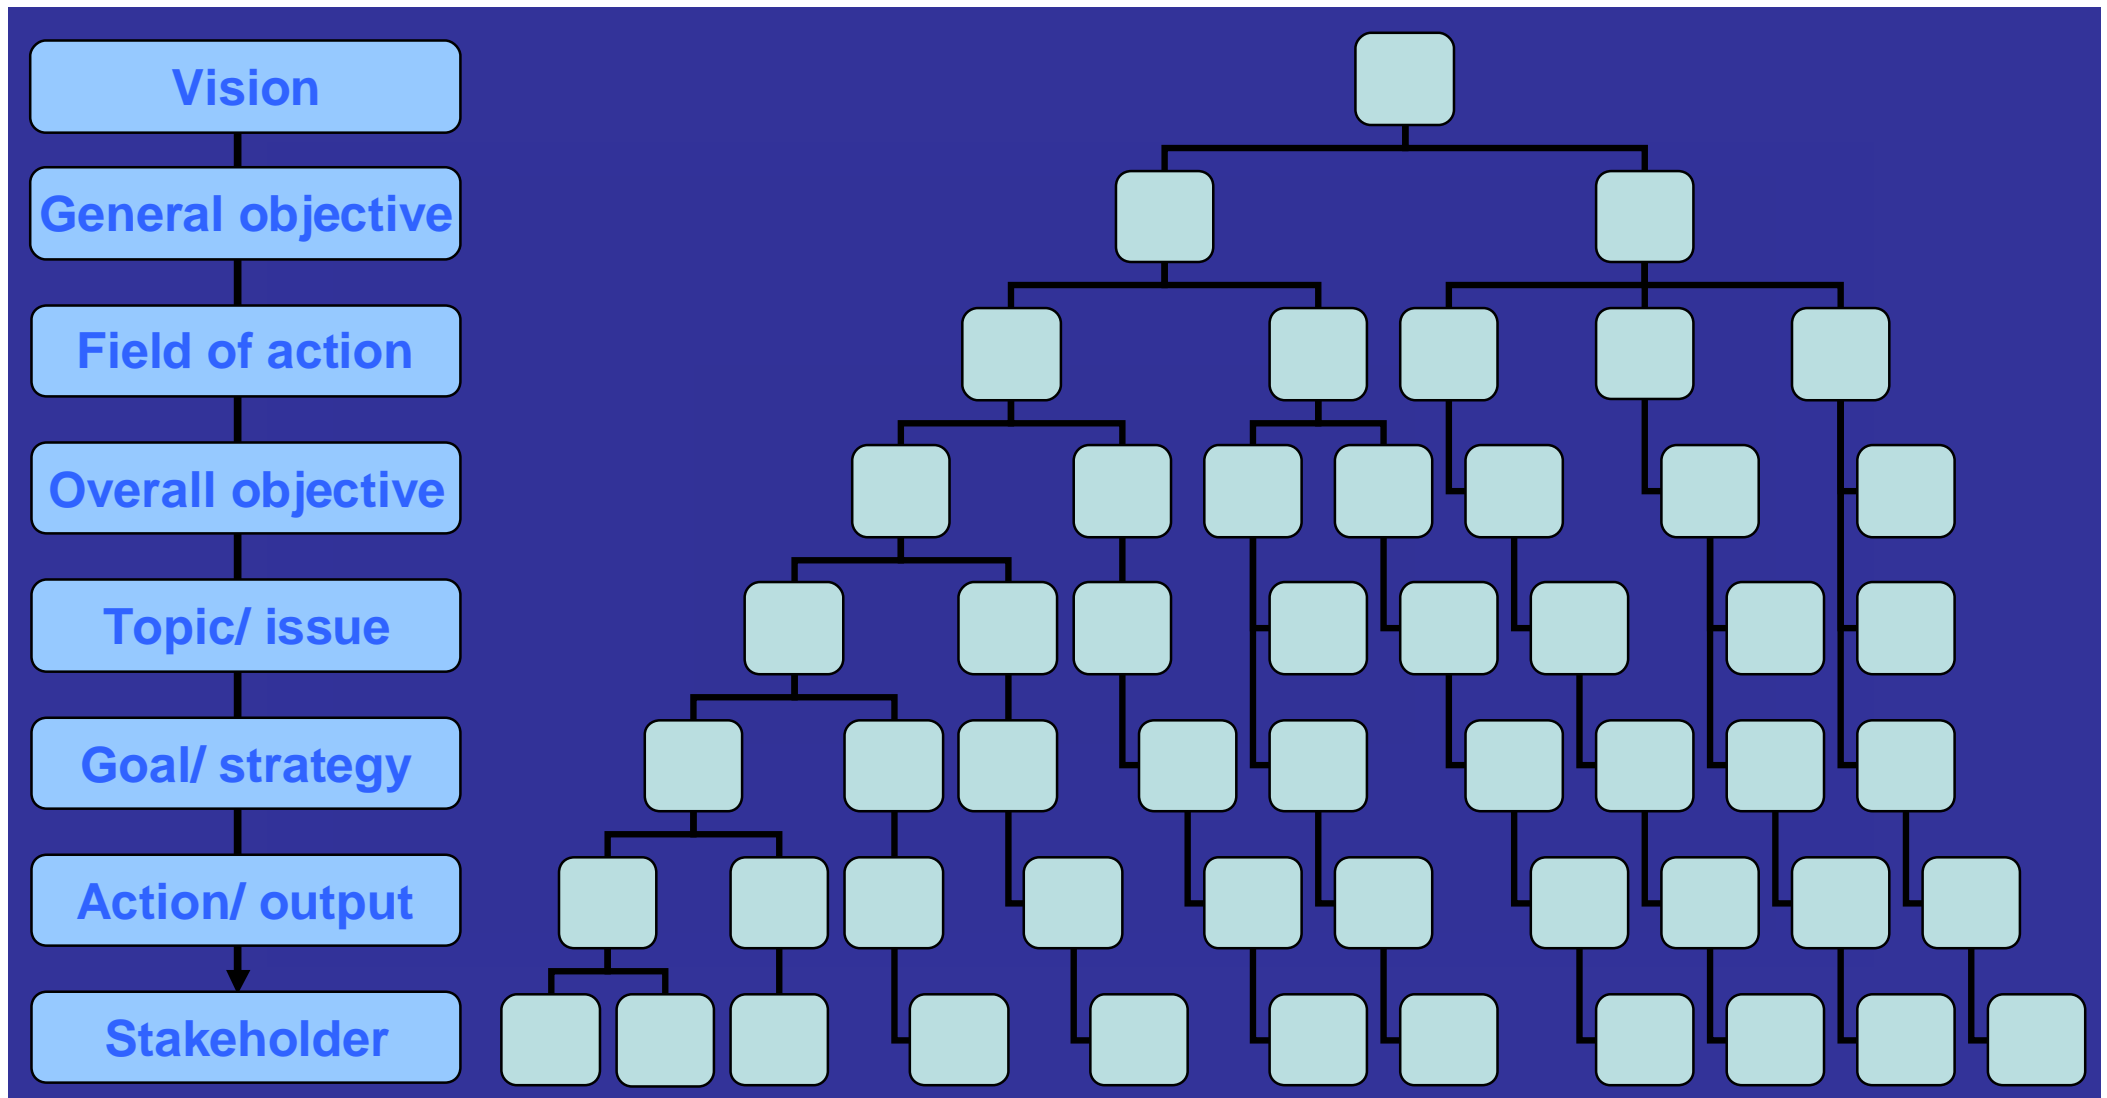

Issues to be analysed concerning the current situation

- Kind of cultural heritage and state of preservation
- Significance and value of historic area and tangible cultural heritage
- Demands of 'users' towards historic urban area and cultural heritage
- Dangers and threats to historic area and tangible cultural heritage
- Existing instruments of safeguarding heritage values
- Existing sectoral and integrated strategies, plans, actions, etc. directed/ affecting historic areas and tangible cultural heritage
- Existing structures and procedures for safeguarding and further development of cultural heritage and historic urban area

★ 3) Elaboration of the CHIMP: Vision, Objectives, Field of Actions

★ 3) Visualising the “Chain of Deduction”

★ 3) Elaboration of the CHIMP: Structure and Procedures

Organisational and operational structures and procedures

1. Identify needed structure and procedures in support of
 - objectives of CHIMP
 - implementation and application of MS+integrated approach
2. Define the objective for the structure and each procedure
3. Develop/ adapt needed structure/ procedures

★ 4) Elaboration of the CHIMP: How to do...

How to do

1. LSG

Regular meetings, workshops, working sessions, doing brainstorming/ asking for provision of information

2. Experts

Interviews, consultations, brainstorming sessions

3. Target groups not directly involved in LSG

Public meetings, hearings, time restricted working groups

★ 4) Elaboration of the CHIMP: Pay attention to ...

Pay attention to

- Define field of actions, objectives, topics, goals, actions, structures/procedures **based on analysis of current situation.**
- **Get more concrete** from the vision, via the objectives to the goals of topics; they should be **measurable.**
- Vision, objectives, goals, actions, structures/procedures have to be **congruent** (no contradictions), **deducible** and **achievable.**
- **Coordinate** objectives, goals, actions, structures/ procedures to identify **conflicts/contradictions** and **make synergies and win-win situations visible.**
- **Actions/ outputs that do not contribute** to the defined goals and objectives should **be excluded.**
- **Assure identification and support** of vision, objectives, goals, actions, structures/ procedures **by relevant stakeholders**
- **Make** vision, objectives, goals, actions, structures/ procedures **well known to the public.**

★ 5) Summary

- Do the “chain of deduction” based on analysis of **current situation** (vision, objectives, goals, actions).
- **Develop needed organisational and operational structure/ procedure**
- **Do it with your LSG and further stakeholders if needed**

Thank you for your attention.
