Integrated Cultural Heritage Management Plans**

Challenges for Historic Urban Areas

PRESERVING THE “PAST” – FACILITATING THE “FUTURE”!

Main Demands for Action

- 1. Integrated Approach**
- 2. Management Systems**

Characteristics of an Integrated Approach: Linking, balancing, coordinating different needs

Comprehensive approach – cross-thematic and cross-technical/sectoral

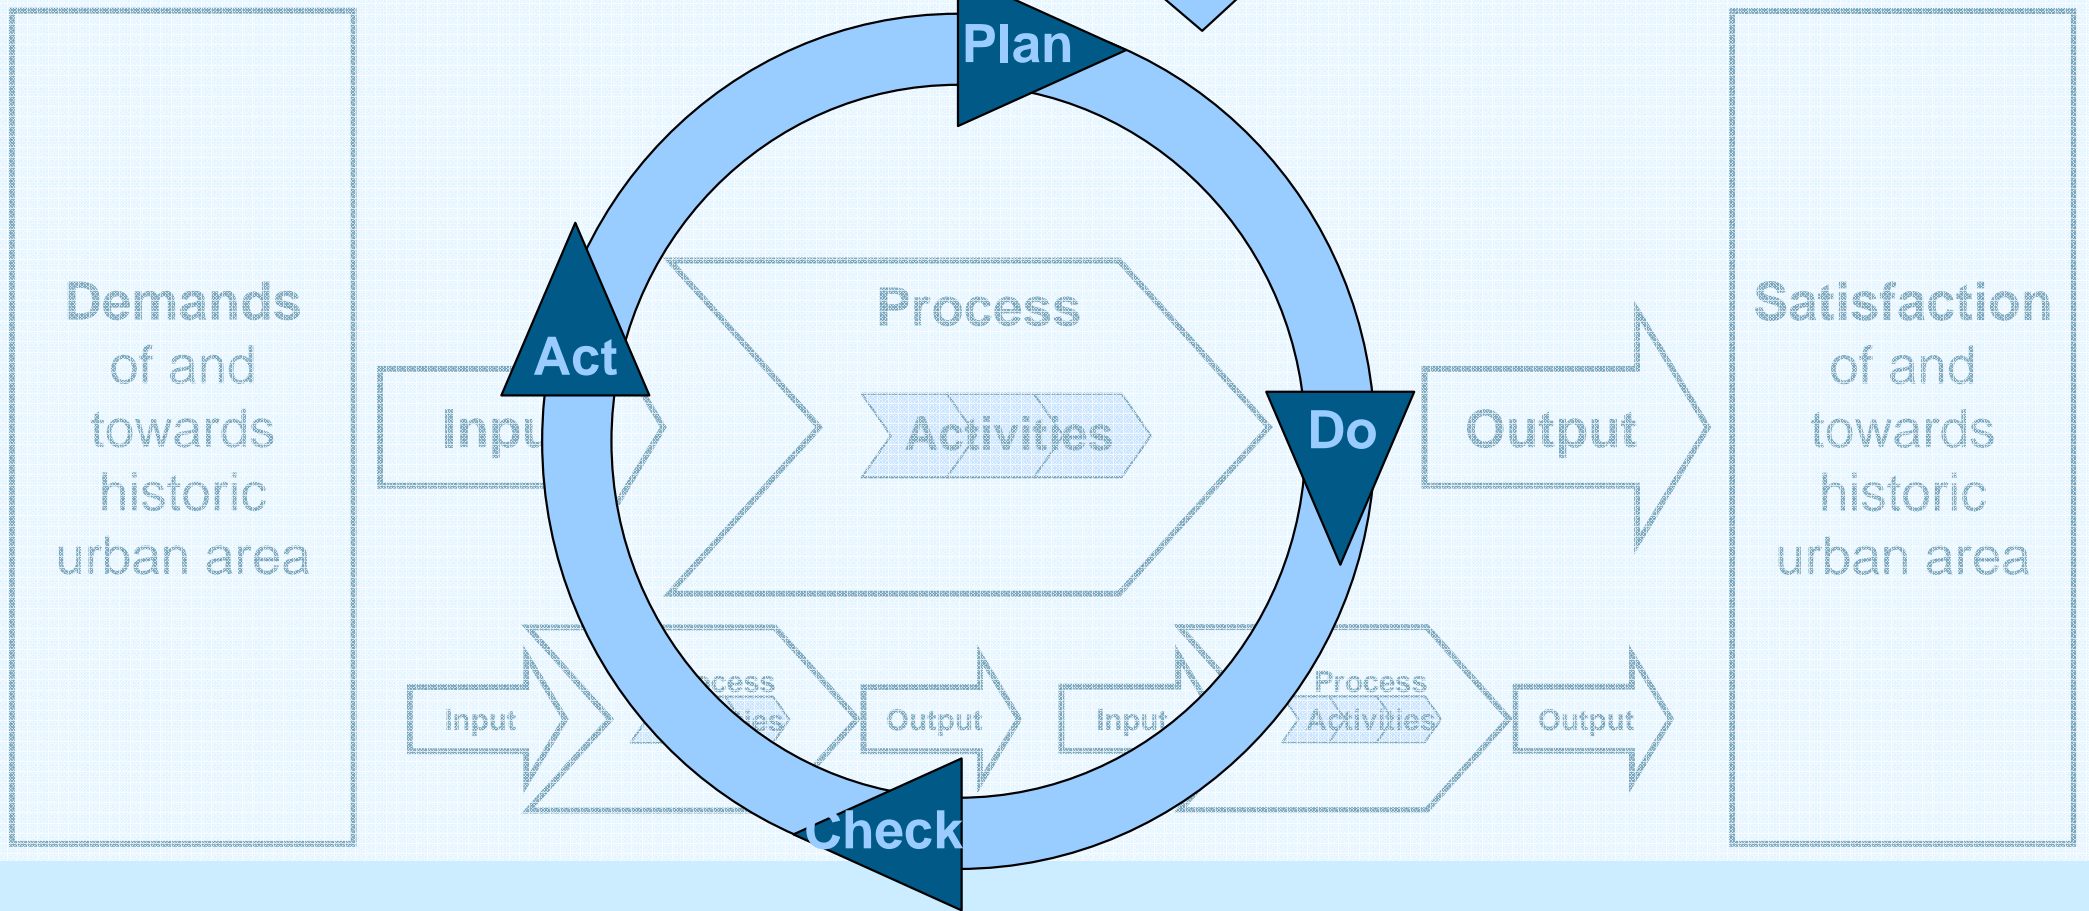

- Taking into account all dimensions of urban life
- Intensifying cooperation between local departments and agencies
- Coordinating sectoral urban policies and actions

Co-operative and communicative process

- Activating and involving private stakeholders
- Developing common objectives and actions
- Coordinating public and private actions

Main Demands for Action: Management System

to manage the implementation of **Continual Improvement** continual improvement

Requirements for Integrated Cultural Heritage Management Plans
