Building Healthy Communities

Corneliu PRICOPE, BACĂU

Presentation of the Bacău Local Action Plan

European Union
European Regional Development Fund

Connecting cities
Building successes

Main theme of the LAP

Creating healthy alternatives in order to improve the quality of life.

AN URBACT II PROJECT

Actions foreseen in our LAP

- Creating healthy alternatives in order to improve the quality of life;
- Development of social services in order to promote the active social assistance;
- Ensuring continuity of the medical act by increasing the share of home care and of rehabilitation services, including the services of preventive medicine;
- Information and awareness regarding incurable diseases;
- Increasing access to primary medical prevention services for the children and the teenagers from Romania;

Actions foreseen in our LAP

- Environment regeneration and protection through:
 - » Reducing the impact of pollution on the environmental parts;
 - » The development of the infrastructure and of the management plans in order to protect the biodiversity and the Natura 2000 Network;
 - » Increasing the green area per inhabitant and preservation of the existing ones;
 - » Implementing programs of reducing the greenhouse gases emissions;
 - » Producing smart alternative energy and decreasing the energy consumption;
 - » The management of waste according to the Community legislation;
 - » Introducing the quality standards in constructions and the energetical protection of buildings;
 - » Preserving the natural environment in the rural areas around the city;
 - » Improving the domestic water quality (modernization of the urban furnishing network in a centralized system and usage of clean sources);
 - » The wastewater management according to the Community legislation;
 - » Promoting the ecological tourism.

Actions foreseen in our LAP

- Improving the traffic conditions and rehabilitation / modernization of the municipal roads;
- Business infrastructure development and stimulation of the business environment;
- Improving accessibility to education and training opportunities;
- according the city development strategy with the National and European programs (Lisbon Agenda, Leipzig Charter, etc.);
- Identifying skills and local policies in order to support the sustainable and healthy urban development.

- Construction of 104 social housings;
- Rehabilitation of the domestic water systems and of the sewerage;
- Integrated urban development plan;
- Road infrastructure development in the City of Bacău

Potential/actual fundings

The funding sources for the projects listed in the Local Action Plan are from the local budget, the domestic loans, sanitation tax, the national public budget, their own funding of NGOs. However, the objectives could be achieved by accessing non-reimbursable external funds on programs such as, ROP, PHARE and ISPA and other Operational Programs (Structural Instruments).

The main financing opportunities in the city of Bacău are the following:

- › ROP - The Regional Operational Program;
- › SOP HRD - Sectoral Operational Program - Human Resources Development;
- › SOP IEC - Sectoral Operational Program - Economic Competitiveness Growth;
- › SOP Environment - Environment Sectoral Operational Program;
- › POS DCA - Sectoral Operational Program - Administrative Capacity Development;
- › ISPA Program (Instrument for Structural Policies for Pre-Accession).
