Presentation the city of Bytom

Bytom from the bird's eye

Presentation the city of Bytom

- **Sustainable development** is a process of developing land, cities, business, communities, and so on that "meets the needs of the present without compromising the ability of future generations to meet their own needs" according to the Brundtland Report, a 1987 report from the United Nations
- The first **Development Strategy of Bytom 2001-2015** was built in the sustainable context

The basis of the city sustainable development

Main barriers and problems related to implementation process of strategy

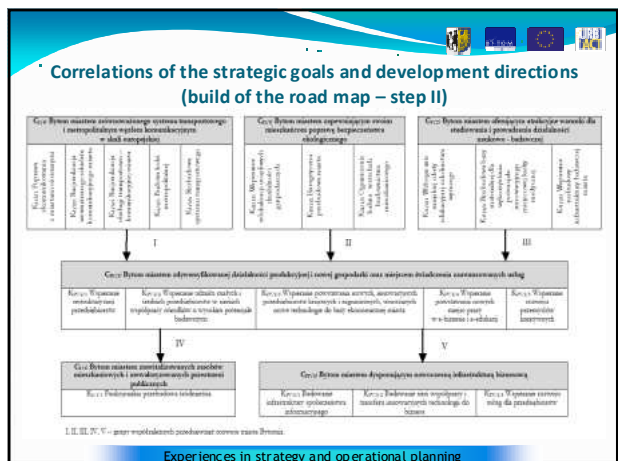

- No practical system to monitoring and evaluating the strategy implementation
- No good set of indicators, which will measure the development status of the city
- No connection between the implementation of development strategy and information collected in GIS system

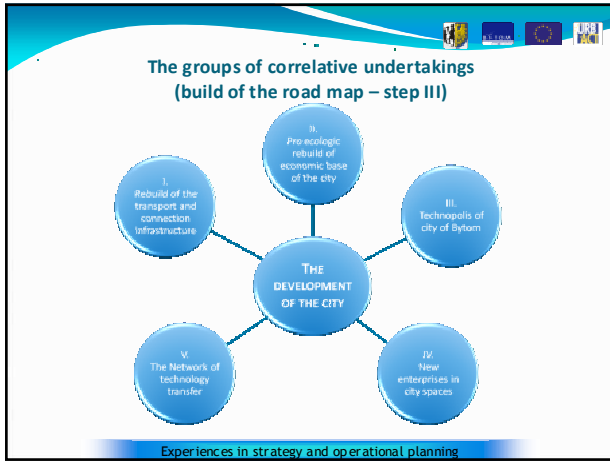

Experiences in strategy and operational planning

The priorities of the Development Strategy of Bytom 2009-2020

- I. Urban convenience
- II. Infrastructure of environment protection
- III. Highest culture and free time
- IV. Enterprise and innovative
- V. Sciences and higher education

Experiences in strategy and operational planning

- ### Three main ideas related to FC-FACIL goals
- 1) Build a ULSG around the city development to identify possibility tools for monitoring and evaluating and to defined set of indicators
 - 2) Create the Local Action Plan as the Local Development Plan, which will be a operational level of the implementation of the strategy
 - 3) Dissemination the results of our work in the LC-FACIL project to another cities, for ex. in form of practical guide or good practices
- The city of Bytom in the LC-FACIL project context

- ### The most important issues contained in Leipzig Chart from the view of development of Bytom
- 1) Creating and ensuring high-quality public spaces
 - 2) Modernizing infrastructure networks and improving energy efficiency
- But for us also important is the good cooperation and exchange experiences with the LC-FACIL project partners !**
- The city of Bytom in the LC-FACIL project context
